Title: Azithmycin water-soluble salt, injection thereof and their usage			
Application Number:	95106702	Application Date:	1995.06.15
Publication Number:	1123279	Publication Date:	1996.05.29
Approval Pub. Date:		Granted Pub. Date:	
International Classification:	A61K9/08,A61K9/16,A61K31/365,A61K31/395,C07D413/14		
Applicant(s) Name:	Shen Jiaxiang		
Address:	100083		
Inventor(s) Name:			
Attorney & Agent:			
Abstract			
The azithromycin and equivalent required organic acid are mixed together, then stirred in requisited amount water at normal temp. until the raw materials are completely dissolved, then the obtained aqueous solution can be made into aqueous injection or powdered injection dosage form after freeze-drying treatment. USE-ADVANTAGE- can be used for curing several indications, and can quickly obtain results, its dose is small and side effect is less.
